MAY 3, 2024

LETTER TO SHAREHOLDERS

March 4, 2024

Dear Fellow Capstone Copper Corp. Shareholders,

Darren Pylot
Board Chair

Peter Meredith
Lead Director

On behalf of Capstone Copper Corp.'s ("**Capstone**" or the "**Company**") Board of Directors (the "**Board**" or the "**Directors**") and employees, we are pleased to enclose the Notice of our Annual General and Special Meeting (the "**Meeting**") to be held at **11:00 am (Pacific Time) on Friday, May 3, 2024**, at the offices of Capstone, 510 West Georgia Street, Suite 2100, Vancouver, British Columbia.

This Management Information Circular outlines the business to be conducted at the Meeting and provides information on the director nominees, corporate governance practices, and Capstone's executive compensation program. In addition to the election of directors and appointment of auditors, we will be asking our shareholders to consider and approve all unallocated entitlements under Capstone's Treasury Share Unit Plan, and, on an advisory basis, Capstone's approach to executive compensation.

The Board is proud of what Capstone has achieved in 2023, notably the establishment of the Sustainable Development Strategy and the adoption of greenhouse gas emissions reduction targets, commissioning activities at Mantoverde Development Project in Chile, issuance of Capstone's inaugural sustainability report for the combined company, and the recognition of the Copper Mark for both Mantoverde and Mantos Blancos operations.

We encourage you to please take the time to read through our Management Information Circular in advance of the Meeting. Your vote is important in electing directors and conducting the other business brought before the Meeting.

On behalf of the Board and Management, we thank you for your continued support and confidence in Capstone.

Sincerely,

"Darren Pylot"
Board Chair

"Peter Meredith"
Lead Director

EXECUTIVE SUMMARY

Capstone's 2023 Results

- Generated Adjusted EBITDA of \$260.3 million and Operating Cash Flow Before changes in working capital of \$204.8 million.
- On March 31, 2023, closed a C\$328 million secondary bought deal offering of common shares of Capstone (“**Common Shares**”) by Capstone’s largest shareholder, Orion Fund JV Limited, Orion Mine Finance Fund II LP and Orion Mine Finance (Master) Fund I-A LP (collectively “**Orion**”).
- Hired James Whittaker as Senior Vice President, Head of Chile, in August 2023. Mr. Whittaker brings over 25+ years of experience, most recently with BHP Chile as President of the Escondida copper mine.
- Capstone’s Mantos Blancos and Mantoverde mines were awarded The Copper Mark in September 2023. The Copper Mark is an assurance framework to promote responsible production practices and demonstrate the industry’s commitment to the United Nations Sustainability Development Goals.
- Subsequent to year-end, the Company announced that it commenced trading on the Australian Securities Exchange under ticker symbol “CSC” (ASX: CSC) on February 2, 2024.
- Subsequent to year-end, the Company closed a C\$431 million bought deal offering of shares, comprised of a C\$356 million primary offering (56.5 million Common Shares) and a C\$75 million secondary offering by Orion. Following the transaction, Orion holds approximately 20.3% of the issued and outstanding Common Shares of Capstone on a non-diluted basis.

Pinto Valley

- Invested in infrastructure upgrades aimed at increasing water reclaim, tailings and environmental projects.
- Advanced a district growth study, which evaluates the consolidation potential of the Pinto Valley district. Opportunities under evaluation include a potential mill expansion and increased leaching capacity supported by optimized water, heap and dump leach, and tailings infrastructure. This could unlock significant Environmental, Social and Governance (“**ESG**”) opportunities and may transform our approach to create value for all stakeholders in the Globe-Miami District.

Cozamin

- Released a new technical report in March 2023. The technical report included a new cut and fill mining method, which aims to increase mineralized recovery in some areas of the orebody and increase the opportunity to convert mineral resources to reserves.
- Ramped up the dry stack and paste backfill plant during the first half of 2023. This new approach involves filtering tailings to extract more water, which can be reused.
- Continued exploration activities to test the Mala Noche Main Vein West Target with underground drilling from the west crosscut ramp.

Mantoverde

- Completed construction of all the elements required to commence commissioning at the Mantoverde Development Project (“**MVDP**”). Commissioning activities are underway, and the Company is focused on a safe, efficient, and phased project commissioning and ramp-up. As at December 31, 2023, cash capital spent at MVDP totaled \$809 million versus the project capital estimate of \$870 million.
- MVDP is expected to enable the mine to process 231 million tonnes of copper sulphide reserves at a rate of 32,000 tonnes of ore per day over a 20-year expected mine life, in addition to existing oxide reserves.
- Advanced the Mantoverde Optimized feasibility study, which is evaluating increasing throughput at MVDP to approximately 45,000 tonnes of ore per day with no major capital equipment upgrades. The feasibility study is expected in the 2024.
- Hired Oscar Flores as new Mine General Manager, starting January 2024. Mr. Flores brings +25 years of mining experience, including past general management positions with Kinross, AMSA, Anglo American, and Codelco in Chile, as well as with New Gold in Mexico, Australia, and Canada.

¹ Production guidance as most recently disclosed in the Company’s MD&A for the three and nine months ended September 30, 2023.

Mantos Blancos

- Advanced the Mantos Blancos Phase II study, which is evaluating the potential to increase throughput of the sulphide concentrator from 20 thousand tonnes per day to at least 27 thousand tonnes per day.
- Hired Jaime Rivera as new Mine General Manager in October 2023. Mr. Rivera brings +16 years of progressive experience at large mining operations in Chile, and previously held the position of General Manager at BHP's Escondida mine and Codelco's Ministro Hales and Andina mines.

Santo Domingo

- Advanced a feasibility study with contributions from third parties that is expected to be delivered in the first half of 2024. The Company is optimizing the process configuration and updating the Technical Report to take into consideration recently produced metallurgical testwork data, an updated mine plan with a lower strip ratio, and a modernized milling and flotation circuit with a lower overall footprint and operating cost compared with the previous design.

Management recommends you vote **for** our approach to executive compensation

VI. Approve all unallocated entitlements under Treasury Share Unit Plan, as amended from time to time in accordance with its terms until May 3, 2027;

The Company is seeking Shareholder approval of all unallocated entitlements under the Treasury Share Unit Plan, as such Shareholder approval is required every three years under the rules of the TSX.

The Treasury Share Unit Plan is an evergreen plan whereby the number of Common Shares issuable under the Treasury Share Unit Plan is based on a 10% rolling reserve of Capstone’s total number of issued and outstanding shares. The Treasury Share Unit Plan was originally approved on April 28, 2021, by the shareholders of Capstone Mining Corp.

As of December 31, 2023, the Company had 876,550 Treasury Restricted Share Units (“TRSUs”) and 1,853,278 Treasury Performance Share Units (“TPSUs”) authorized and outstanding, which, if all were exercised for or settled by the delivery of Common Shares, would represent 0.4% of the issued and outstanding Common Shares of the Company.

A summary of the Treasury Share Unit Plan is included in the CD&A (as defined below) at page 60 and a full copy of the Treasury Share Unit Plan text can be found under Schedule “A” and filed on SEDAR+ at www.sedarplus.ca.

Management recommends you vote **for** the approval of all unallocated entitlements

The following table sets out information with respect to the unallocated share awards under the Treasury Share Unit Plan as at December 31, 2023.

Plan Category	Number of securities to be issued upon exercise of rights (a)	Weighted average exercise price of outstanding rights (b)	Number of securities remaining available for future issuance under the Treasury Share Unit Plan (excluding securities reflected in column (a)) (c)
Treasury RSUs	876,550 0.1%	\$5.63	2,201,588 0.3%
Treasury PSUs	1,853,278 0.3%	\$5.54	

Pursuant to the terms of the Treasury Share Unit Plan, the Company has the discretion to settle awards made under the Treasury Share Unit Plan by delivery of Common Shares issued from treasury, Common Shares purchased in the open market, in cash, or in any combination of the foregoing.

The board of Capstone Mining Corp. adopted the Treasury Share Unit Plan in 2021 for the benefit of the Company’s executives, employees and consultants. The Board adopted the Treasury Share Unit Plan in 2022 following the arrangement agreement between Capstone Mining Corp. and Mantos Copper.

At the Meeting, Capstone will ask shareholders to approve all unallocated entitlements under the Treasury Share Unit Plan in accordance with its terms until May 3, 2027. If shareholders do not approve the resolution, all allocated entitlements that have been granted but not yet exercised, will continue unaffected.

“BE IT RESOLVED THAT:

1. All unallocated entitlements under the Treasury Share Unit Plan, be and are hereby approved in accordance with the Treasury Share Unit Plan’s terms;
2. Capstone shall have the ability to continue granting TRSUs and TPSUs under the Treasury Share Unit Plan until May 3, 2027, which is the date that is three years from the date of the shareholder meeting at which shareholder approval is being sought; and
3. Any one director or officer of Capstone be and is hereby authorized and directed to do all such further acts and things and to execute such further agreements and other documents for and on behalf of Capstone as such director or officer may consider necessary, desirable or useful having regard to this resolution.”

VII. Other Business

VOTING INFORMATION

Solicitation of Proxies

This Management Information Circular is furnished in connection with the solicitation of proxies being made by the Management of Capstone for use at the Meeting of Capstone's shareholders to be held on Friday, May 3, 2024, at the time and place and for the purposes set forth in the Notice on page v.

It is expected that solicitations of proxies will be made primarily through the use of the notice and access procedures detailed above under the heading "Notice and Access", however, proxies may also be solicited by telephone or other personal contact by directors, officers and employees of the Company without special compensation. The Company may reimburse shareholders' nominees or agents (including brokers holding shares on behalf of clients) for the costs incurred in obtaining authorization to execute forms of proxies from their principals. The costs of solicitation will be borne by the Company.

Only a Shareholder whose name appears on the certificate(s) representing its shares (a "**Registered Shareholder**") or its duly appointed proxy nominee is permitted to vote at the Meeting. A Shareholder is a non-registered shareholder (a "**Non-Registered Shareholder**") if its shares are registered in the name of an intermediary, such as an investment dealer, brokerage firm, bank, trust company, trustee, custodian, administrators of self-administered RRSPs, RRIFs, RESPs and similar plans or other nominee, or a clearing agency in which the Intermediary participates. Accordingly, most shareholders of the Company are "Non-Registered Shareholders" because the shares they own are not registered in their names but are instead registered in the name of the Intermediary through which they purchased the shares. More particularly, a person is a Non-Registered Shareholder in respect of shares which are held on behalf of that person, but which are registered either: (a) in the name of an Intermediary that the Non-Registered Shareholder deals with in respect of the shares; or (b) in the name of a clearing agency (such as The Canadian Depository for Securities Limited ("**CDS**")) of which the Intermediary is a participant. In Canada, the vast majority of such shares are registered under the name of CDS, which acts as nominee for many Canadian brokerage firms. Common Shares so held by brokers or their nominees can only be voted (for or against resolutions) upon the instructions of the Non-Registered Shareholder. Without specific instructions, Intermediaries are prohibited from voting shares held for Non-Registered Shareholders.

Record Date

The record date for the Meeting is March 4, 2024 (the "**Record Date**").

Who Can Vote

Any shareholder of record at the close of business on March 4, 2024 who either personally attends the Meeting or who has completed and delivered a Proxy in the manner specified below, shall be entitled to vote or to have such shareholder's shares voted at the Meeting.

Appointment of Proxyholders

You can appoint someone to attend and act on your behalf at the Meeting other than the persons named in the Proxy as proxyholders. If you don't appoint a proxyholder, Darren Pylot (Board Chair), Peter Meredith (Lead Director) John MacKenzie (CEO), Cashel Meagher (COO) and Raman Randhawa (CFO), will be your proxyholder.

Indicate the manner in which your proxyholder is to vote with respect to any matter by marking "X" in the appropriate space.

The Proxy must be dated and signed by you, or your attorney authorized in writing. In the case of a corporation, the Proxy must be dated and duly executed under its corporate seal or signed by a duly authorized officer or attorney for the corporation.

If you wish to confer a discretionary authority with respect to any matter, then the space should be left blank. In such instance, the proxyholder, if nominated by Management, intends to vote the shares represented by the Proxy in favour of the motion.

If there are other items brought before the meeting, your proxyholder will decide how to vote. At the time of printing the Meeting Materials, Management is not aware that any such amendments, variations or other matters are to be presented for action at the Meeting.

Proxies must be deposited at the office of Computershare, no later than 11:00a.m. PT on Monday, May 1, 2024.

Deadline for the deposit of Proxies may be waived by the Chair of the Meeting at his sole discretion without notice.

Failure to properly complete or deposit a Proxy may result in its invalidation.

Quorum

The quorum for the transaction of business at a meeting of shareholders is two individuals present at the commencement of the Meeting holding or representing by proxy the holder or holders of shares carrying not less than one-quarter of the votes eligible to be cast at the Meeting.

Approvals

To approve a motion proposed at the Meeting, a majority of greater than 50% of the votes cast will be required (an "ordinary resolution") unless the motion requires a "special resolution" in which case a majority of 66% of the votes cast will be required.

Completion and Voting of Proxies

Voting at the Meeting will be by a show of hands, with each registered shareholder and each Proxyholder (representing a registered or Beneficial Shareholder) having one vote, unless a poll is required or requested, whereupon each such shareholder and Proxyholder is entitled to one vote for each common share held or represented, respectively.

Exercise of Discretion

On any poll that may be called for, the shares represented by a properly executed Proxy given in favor of the person(s) designated in the Proxy will be voted or withheld from voting in accordance with the instructions given on the Proxy and, if the shareholder specifies a choice with respect to any matter to be acted upon, the shares will be voted accordingly.

Where no choice has been specified by the shareholder, such shares will be voted:

- FOR the number of directors to be set at eight
- FOR the election of directors
- FOR the appointment of auditors
- FOR the approval of the Non-Binding Advisory Vote on Executive Compensation
- FOR the approval of the unallocated entitlements under the Treasury Share Unit Plan

Voting Results

We will issue a news release with the voting results shortly after the Meeting and will also file voting results on SEDAR+ at www.sedarplus.ca.

Advance Notice

In accordance with Capstone's Advance Notice Policy, as adopted by the Board on March 23, 2022, shareholders who wish to nominate a candidate for election as director must provide timely notice in proper written form by personal delivery, facsimile or email to the Corporate Secretary of Capstone. **The notice must be made not less than 35 days prior to the date of the Meeting.** As a result, any shareholder wishing to nominate a candidate for election as director must provide notice to Capstone by **March 29, 2024**. A copy of our Advance Notice Policy is attached as Schedule "B" to this Management Information Circular.

Majority Voting for Directors

Capstone has a majority voting policy for the election of directors. Any nominee in an uncontested election who receives a greater number of votes "*withheld*" than votes "*for*" shall be considered not to have received the support of shareholders. Such nominee is expected to tender his or her resignation to the Chair of the Board promptly following the applicable shareholders' meeting. The Board expects that resignations will be accepted unless extenuating circumstances warrant the refusal of the director's resignation. The Board will make its final decision and announce it in a news release within 90 days following the Meeting and provide a copy of the news release with the Board's decision to the TSX. A director who tenders his or her resignation pursuant to this policy will not participate in any meeting of the Board or the GNS Committee at which such resignation is considered.

Subject to any corporate law restrictions, where the Board accepts the offer of resignation of a director and that director resigns, the Board may exercise its discretion with respect to any resulting vacancy and may, without limitation, leave the resultant vacancy unfilled until the next annual meeting of shareholders, fill the vacancy through the appointment of a new director whom the Board considers to merit the confidence of the shareholders, or call a special meeting of shareholders to elect a new nominee to fill the vacant position.

Cease Trade Orders, Bankruptcies, Penalties or Sanctions

To the best of Management's knowledge, except as disclosed immediately below, no proposed director is, or has been within the last ten years, a director or executive officer of any company that, while that person was acting in that capacity:

- was the subject of a cease trade or similar order or an order that denied the relevant company access to any exemption under securities legislation, for a period of more than 30 consecutive days; or
- was subject to an event that resulted, after the director or executive officer ceased to be a director or executive officer, in the company being the subject of a cease trade or similar order or an order that denied the relevant company access to any exemption under securities legislation, for a period of more than 30 consecutive days; or
- within a year of that person ceasing to act in that capacity, became bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency or was subject to or instituted any proceedings, arrangement or compromise with creditors or had a receiver, receiver manager or trustee appointed to hold its assets, except:

Mr. Peter Meredith served as a director of Ivanhoe Energy Inc. ("**Ivanhoe Energy**") from December 2007 to December 2014. On February 20, 2015, Ivanhoe Energy filed a Notice of Intention to Make a Proposal under subsection 50.4(1) of the Bankruptcy and Insolvency Act (Canada). Cease trade orders were issued against Ivanhoe Energy in Alberta (July 15, 2015), Quebec (May 7, 2015), Manitoba (May 6, 2015), Ontario (May 4, 2015) and British Columbia (April 14, 2015) in respect of the company failing to file its audited financial statements and annual management's discussion and analysis, annual information form and certification of annual filings for the year ended December 31, 2014. The foregoing cease trade orders remain in effect. On June 2, 2015, having failed to file a proposal, Ivanhoe Energy was assigned into bankruptcy. Ivanhoe Energy dissolved on May 16, 2017.

To the best of Management's knowledge, no proposed director has, within the ten years before the date of this Management Information Circular, become bankrupt, made a proposal under any legislation relating to bankruptcy or insolvency, or become subject to or instituted any proceedings, arrangement or compromise with creditors, or had a receiver, receiver manager or trustee appointed to hold the assets of the proposed director.

To the best of Management's knowledge, no proposed director of the Company has been subject to: (a) any penalties or sanctions imposed by a court relating to securities legislation or by a securities regulatory authority or has entered into a settlement agreement with a securities regulatory authority; or (b) any other penalties or sanctions imposed by a court or regulatory body that would likely be considered important to a reasonable securityholder in deciding whether to vote for a proposed director.

Members of our Board and Committees of the Board

The Board discharges some of its mandate through four committees of the Board. The members of the Board and the committees on which they serve as of the Record Date are identified below:

	INDEPENDENT								
	Alison Baker	Patricia Palacios	Gordon Bell	Robert Gallagher	Anne Giardini	Peter Meredith	John MacKenzie ¹⁸	Darren Pylot ¹⁹	
Audit Committee	C		M		M	M			
Governance, Nominating & Sustainability Committee		M		M	C				
Human Resource & Compensation Committee	M			M		C			
Technical & Operational Performance Committee		M	M	C					

C = Chair of Committee M = Member of Committee

Based on an assessment of the skills required for each committee, the GNS Committee nominates independent directors²⁰ as Chair and members of each committee of the Board as outlined in the Board and individual committee terms of references. The Board has the authority to appoint *ad hoc* committees as needed.

Meetings of the Board and Committees of the Board

The Board has eight regularly scheduled meetings per year with provisions for additional meetings as required. At any time, the Board may convene a special meeting with notice. The committees typically meet between four to five times per year depending upon the nature of the committee. All Directors are expected to attend Board meetings and committee meetings in person, by video conference or by telephone conference call unless they recuse themselves from such meetings. All Directors have a standing invitation to attend committee meetings as guests. In practice, Directors attend meetings of other committees on a regular basis. The Chair and the CEO attend portions of committee meetings *ex officio* with a portion of each meeting held *in camera* (independent Directors only).

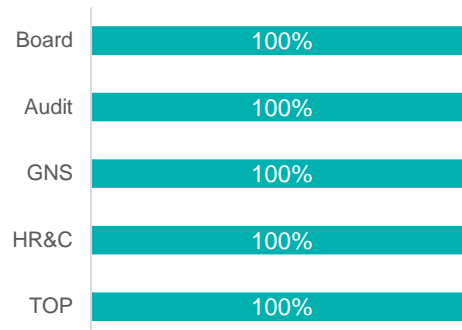

¹⁸ Mr. MacKenzie serves as Chief Executive Officer of Capstone.

¹⁹ Mr. Pylot currently serves as Chair of the Board of Directors and was formerly Chief Executive Officer of Capstone Mining Corp.

²⁰ All nominated members of the committees of the Board qualify as independent directors pursuant to National Policy 58-201 – *Corporate Governance Guidelines* and National Instrument 52-110 – *Audit Committees*.

Attendance of Directors at Board and Committee Meetings

In 2023, the Board held a total of eleven meetings and each committee of the Board held at least four meetings. The chart on the right shows the attendance record for all Board and committee meetings in 2023.

In Camera Sessions

The Board's policy is to hold *in camera* sessions at the end of each Board meeting at which non-independent Directors and members of Management do not attend. In addition, each committee holds an *in-camera* session at the end of each committee meeting. Additional *in camera* sessions are held as required.

Directorships

In addition to their positions on the Board, the following Directors or nominees for director also serve as directors of the following reporting issuers or reporting issuer equivalent(s):

Name of Director	Reporting Issuer(s) or Equivalent(s)
Alison Baker	Endeavor Mining plc, Helios Towers plc and Rockhopper Exploration plc
Gordon Bell	nil.

Anne Giardini	K92 Mining Inc. and Stella-Jones Inc.
John MacKenzie	Horizonte Minerals plc
Peter Meredith	Ivanhoe Mines Ltd.
Patricia Palacios	nil.
Darren Pylot	Zena Mining Corp.

Directors Serving Together

The Board's approach to director interlocking board relationships is aligned with Canadian Coalition of Good Governance principles limiting the number of directors sitting together on another public company board to two directors. The Board considers director interlocks when considering new candidates and approving requests to join additional boards. Currently, no Directors of Capstone serve together on interlocking boards.

Board and Committee Terms of Reference

The Board has developed written terms of references for the Board and each committee of the Board. These terms of references are reviewed annually by the respective committees and the Board. The Board's and each committee's terms of references are available on Capstone's website at www.capstonecopper.com and a copy of the Board's terms of reference is attached as Schedule "C" to this Management Information Circular.

Position Descriptions

The Board has developed and approved written position descriptions for each of the Board Chair, Lead Director, the Chair of each committee of the Board, and the CEO. A copy of these position descriptions is available on Capstone's website at www.capstonecopper.com. The position descriptions are reviewed by the GNS Committee and the Board annually.

Director Tenure

The Board has chosen not to implement mandatory retirement or term limits for Directors. The Board believes that limits on a director's term is not in the best interest of Capstone. Limits on tenure discount the value of experience and continuity of board members and risks excluding potentially valuable members of the Board as a result of an arbitrary determination. The Board has a rigorous process to review Directors and Board effectiveness, including a skills gap analysis and a diversity policy which all assist in Board renewal and ensuring the strong performance and independence of Directors.

Diversity

Capstone is dedicated to promoting diversity within its Board. Our Diversity and Inclusion Policy (the "**Diversity Policy**") recognizes and embraces the benefits of having diversity on the Board and in Capstone's Management, including but not limited to gender diversity. Capstone's "Our Values and Ethics – Code of Conduct" (the "**Code of Conduct**" or "**Code**") also supports diversity within Capstone.

With respect to the Board, the objective of the Diversity Policy is to ensure that diversity is taken into account when reviewing Board composition and identifying suitable candidates for Board appointment or nomination for election to the Board, a merit-based competitive process is also maintained where the GNS Committee also considers the following:

- The competencies and skills that the Board considers to be necessary for the Board, as a whole, to possess;
- The competencies and skills that the Board considers each existing director to possess; and
- The competencies and skills each new nominee will bring to the boardroom.

When considering candidates, a short-list identifying potential candidates shall include at least one female candidate for each available board seat and if at the end of the selection process, no female candidates are selected, the Board must be satisfied that there are objective reasons to support this determination.

On an annual basis, the GNS Committee assesses the effectiveness of Capstone's performance in meeting the objectives outlined in the Diversity Policy by a review of our progress in increasing diversity amongst Management and on the Board.

In 2023, we achieved our target of 30% female representation on the Board. While we have set a clear target for female representation, we have not yet established specific targets for racial or ethnic diversity. However, we have enhanced ethnic and racial diversity with the appointment of Patricia Palacios, our first Latin-American director.

The Diversity Policy may be accessed on Capstone's website at www.capstonecopper.com.

Director Orientation and Education Process

The Board has adopted a written Director's Orientation and Education Process which sets out the education support provided to the Board. The Director's Orientation and Education Process also provides the onboarding process for new Directors that includes a comprehensive electronic board manual, site visits, and an in-depth seminar covering an introduction to mining (as needed), and an education session with the members of Management and external legal, compensation and audit service providers to familiarize the new director with Capstone's business and operations, including but not limited to:

- corporate and financial strategy;
- ESG/Sustainable Development Strategy;
- risk, governance, legal and regulatory compliance programs;
- operations overview;
- marketing strategy;
- industry education, as needed;
- investor presentation;
- exploration strategy; and
- an orientation to the Board and committees.

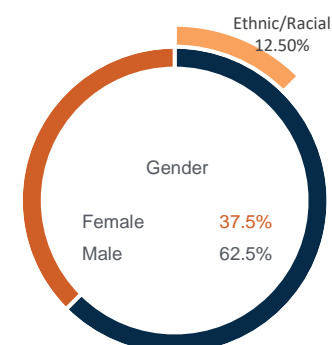

EACH ORIENTATION PROGRAM IS TAILORED TO THE INDIVIDUAL NEEDS AND AREAS OF EXPERTISE OF THE NEW DIRECTOR.

Board members are provided with:

- a digital board manual which provides information such as position descriptions for the Chair of the Board and the committee Chairs, the terms of reference for the Board and all committees, copies of Capstone's corporate governance policies, governance related articles, materials relating to the operations of Capstone and other industry related materials;
- access to recent, publicly filed documents of Capstone, technical reports and Capstone's internal financial information;
- access to recent Board and committee meeting materials;
- access to Management, technical experts and consultants; and
- a summary of significant corporate and securities responsibilities.

Board members are encouraged to communicate with Management, auditors, technical consultants and compensation consultants; to keep themselves current with industry trends and developments and changes in legislation with Management's assistance; and to attend related industry and governance seminars and visit Capstone's operations. Board members have full access to Capstone's records.

The Board believes that continuing education is important for Directors to keep informed on changes in governance best practices and legal regulatory requirements and to better understand the issues facing Capstone. As such, the Board encourages all Directors to participate in continuing education. In addition, the Directors receive regular educational presentations and updates from Management on matters of emerging significance.

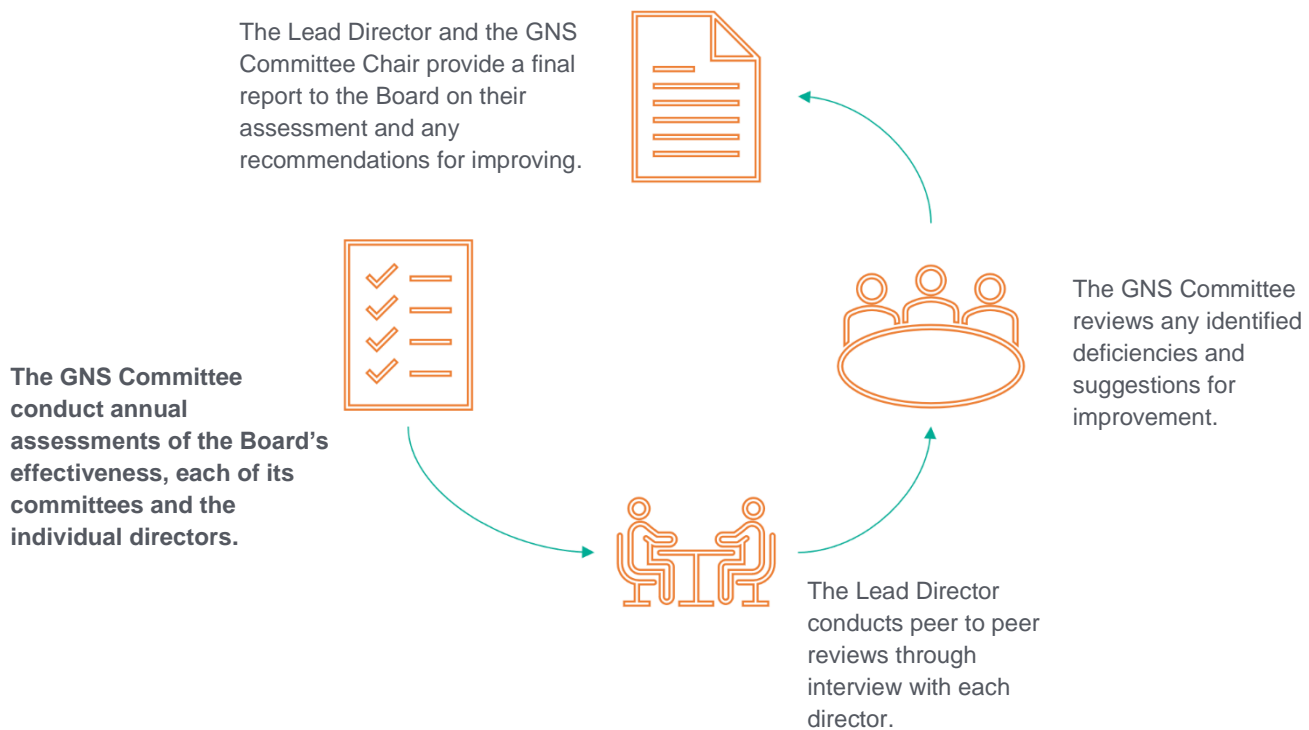

Through the course of 2023, the following events, seminars and other events were attended by Capstone’s directors:

Board Performance Assessments

The GNS Committee is responsible for overseeing the annual assessment process of the Board, its committees and individual Directors. The assessments are intended to provide the Board and each committee with an opportunity to evaluate performance for the purpose of improving Board and committee processes and effectiveness.

The process is composed of the following steps:

- Board and committee performance evaluation questionnaires including a self-assessment by each director and an assessment by members of Management;
- Chair evaluation questionnaire;
- Lead Director evaluation questionnaire;
- Committee chairs evaluation questionnaire; and
- One-on-one confidential meetings between the Lead Director and every director covering comments provided in the questionnaire and peer evaluations. In addition, the Board may, from time to time, retain an independent advisor to assist the Board in independently assessing the performance of the Board, Board committees, Board and committee chairs and individual Directors.

As part of the Board assessment process, Directors are asked to rate items such as the structure and size of the Board, the knowledge and diversity of the collective Board, the timeliness and completeness of information received from Management, the relationship with Management and the overall effectiveness of the decision-making process. The assessment is intended to identify any deficiencies and any areas for improving the functionality of the Board. In 2023, we added ESG as a specific category to our performance evaluation

(board effectiveness) questionnaire. The GNS Committee is responsible for evaluating and implementing any suggestions elicited through the evaluation process.

Nomination of Directors

The GNS Committee, composed entirely of independent directors, with oversight from the Board, has responsibility for identifying and recruiting potential Board candidates for nomination to the Board.

The Board has developed a Director Succession Plan and Board Recruitment Process Guideline (the “**Guideline**”) to ensure orderly identification and selection of new Directors in the event of an opening on the Board, whether through anticipated retirement, unanticipated departure, expansion of the Board or otherwise. The Guideline outlines a robust nomination and selection process, which is fundamental to board effectiveness and ensures that the Board has the necessary skills and knowledge.

Under the Guideline, the GNS Committee assesses potential candidates to fill the needs of the Board based on an analysis of the skills matrix and the long-term plan for Board composition to ensure the appropriate industry, market, technical, ESG/Sustainability, and professional skills are represented to enable good governance. A recruitment firm may be retained to identify a broad slate of candidates. An assessment of each candidate’s skills, expertise, experience, independence, diversity and personality fit are some of the key factors considered. The Diversity Policy is an integral part of the nomination process.

Capstone has implemented a majority voting policy for Directors which may be accessed on Capstone’s website at www.capstonecopper.com.

Changes to the Board of Directors in 2023 and 2024

On May 8, 2023, Capstone announced the appointment of Mr. Peter Meredith as Lead Independent Director and the resignation of Mr. George Brack. On December 20, 2023, Capstone announced the appointment of Mr. Gordon Bell as a new independent director, effective January 8, 2024.

Independence

The Governance, Nominating and Sustainability Committee assesses the independence of each director on an annual basis as well as the independence of director nominees prior to nomination for election or appointment. In making an independence assessment the GNS Committee considers applicable securities laws as well as other matters it considers relevant, including investor and proxy advisor voting guidelines.

Capstone currently has six independent directors and two non-independent directors (Mr. Pylot and Mr. MacKenzie).

To allow the Board to function independently of Management, the following structures and processes are in place:

1. Capstone has an independent Lead Director, Mr. Meredith, who is responsible for, among other things, providing leadership to ensure the Board functions independently, working with the Chair to ensure appropriate committee structures are in place, consulting and meeting with any or all of the independent directors and, in the absence of the Chair, chairing Board meetings;
2. The CEO and Executive Chair of Capstone do not serve on any of the Committees of the Board. All committee members must be selected among the independent directors;
3. Pursuant to the Articles of Capstone, any one director may call a meeting of the Board;
4. The CEO’s compensation is considered, in the CEO’s absence, by the Human Resources & Compensation Committee and at a Board meeting of the independent members of the Board at least once a year;
5. In addition to the standing committees of the Board, *ad hoc* committees are appointed from time to time, when appropriate; and
6. The directors hold in-camera meetings at the end of all Board and committee meetings at which members of Management and other non-independent directors do not attend.

Skills Matrix

The GNS Committee annually reviews and updates a matrix of skill sets of the current Directors that are important for the oversight of Capstone's business. The skills matrix review has been enhanced with the use of a more comprehensive skills analysis to assist the GNS Committee with its gap analysis when reviewing the needs of the Board. The review is a critical part of director recruitment when changes are made to the Board. The skills matrix and gap analysis are also used to identify board development opportunities and when a change in Board composition is required.

Capstone's governance and accountability framework includes Board-level oversight, executive-level accountability, and functional and operational responsibility for ESG matters. The Executive Committee reports quarterly to the Board on ESG matters and corporate ESG objectives.

Accountability for ESG impacts and performance is in place at all levels of the organization. The Chief Operating Officer has overall responsibility for sustainability impacts. Site General Managers have operational responsibility for ESG and are supported by corporate functional leads. We have specific ESG functions at Pinto Valley, Chile and our corporate offices. We also have an external independent compliance officer specializing in human rights and ethics, who reports directly to a member of the Executive Committee.

Policies relevant to ESG matters

Capstone has a robust ESG policy framework. These include our Code of Conduct Policy; Anti-Bribery Policy; Diversity and Inclusion Policy; Human Rights Policy; Integrated Environment, Health, Safety and Sustainability Policy; Tailings Management Policy and Whistleblower Policy. Senior Management is responsible for developing new ESG policies and reviewing and updating current ESG policies annually. The Board is responsible for approving ESG policies and any updates.

Communication of Ethical Concerns

Capstone has a Whistleblower Policy and a [Whistleblower hotline](#) (administered by an external 3rd party 'Integrity Counts') for stakeholders to report actual or suspected fraud, ethical concerns, violations of company policies, breaches of law, human rights violations, and financial misconduct. Any concerns go directly to the Audit Committee Chair and the SVP, Risk, ESG and General Counsel. Concerns that arise through other channels are also entered into our reporting channel. In this way, all concerns undergo the same reporting and investigation process. Concerns are discussed at the next quarterly Board meeting unless the matter requires more urgent attention. In 2023, Capstone received 29 concerns. These concerns primarily consisted of internal employee reports.

ESG Reporting

Capstone's 2022 Sustainability Report, the first for our combined entity, was reviewed and accepted by the Board and published on November 30, 2023. It was prepared in accordance with the Global Reporting Initiative (GRI) Standards and the Sustainability

Accounting Standards Board (SASB) Standards, and incorporated recommendations of the Task Force on Climate-related Financial Disclosures (TCFD). Material topics for sustainability reporting are approved by the Executive Committee, the GNS Committee and the Board. Capstone’s 2023 Sustainability Report is expected to be published in Q2 2024.

Sustainable Development Strategy²¹

Capstone continues to make progress towards achieving the targets outlined in our Sustainable Development Strategy. In 2023, Capstone created four working groups (Climate, Tailing and Water, Biodiversity and Communities) made up of site and corporate representatives tasked with developing detailed action plans to achieve the Sustainable Development Strategy goals and targets. Capstone is on track to meet these targets.

These risks include strategic, operational, environmental, health, safety and security, human resources, information security, legal and compliance, and ESG global risks, such as climate change, water scarcity, human rights, diversity and inclusion and other risks faced by Capstone. Management is responsible for identifying, evaluating, managing and mitigating Capstone’s exposure to risk. It is the Board’s responsibility to assess key risks facing Capstone and to review Management’s strategies for risk mitigation. Our Board committees assist the Board in fulfilling its enterprise risk oversight responsibilities in certain areas of risk. Our Terms of Reference for the Board and each committee further outlines these responsibilities.

THE BOARD HAS A STRONG PROCESS IN PLACE TO MONITOR SIGNIFICANT RISKS.

Enterprise Risk Management (ERM)

Capstone's robust ERM System is implemented across Capstone to ensure that the risks affecting Capstone's business objectives and strategy are identified, evaluated and managed. The Board and Management identify and discuss key risks and opportunities during the annual strategic planning process. Our framework is used to navigate both negative risk and positive risk in order to better achieve our objectives. Additionally, Capstone's ERM system is integrated across all operations and aligned with our crisis management and emergency response plans and insurance program to establish a more efficient, effective and transparent risk management system. This strategic alignment allows Capstone to successfully transfer risk as appropriate through a robust global insurance program.

Each quarter, committees of the Board receive reports from Management on the risk areas they oversee. The Board also receives an update from Management on the key risks facing Capstone. The update includes a risk matrix, indicating the potential impact and likelihood of the principal risks, supported by a document that details each risk, including reasons for reporting and the mitigation strategies. Several risk management activities are completed by Management quarterly to support the summary reporting to the Board, including but not limited to the following:

- Detailed risk registers are developed for the operating sites, major projects and corporate activities.
- The site and project risk registers are assessed, evaluated and updated through regular workshops and meetings with the general managers and their respective Management teams.
- The corporate risk register is developed, reviewed, and updated with input from site management, followed by a review by the Management team.
- Top risks at each site are regularly discussed during Management meetings.
- Risk training and awareness programs are implemented across Capstone.
- Risks facing Capstone are discussed at each committee of the Board, as appropriate.
- Crisis Management and Emergency Response training and testing.

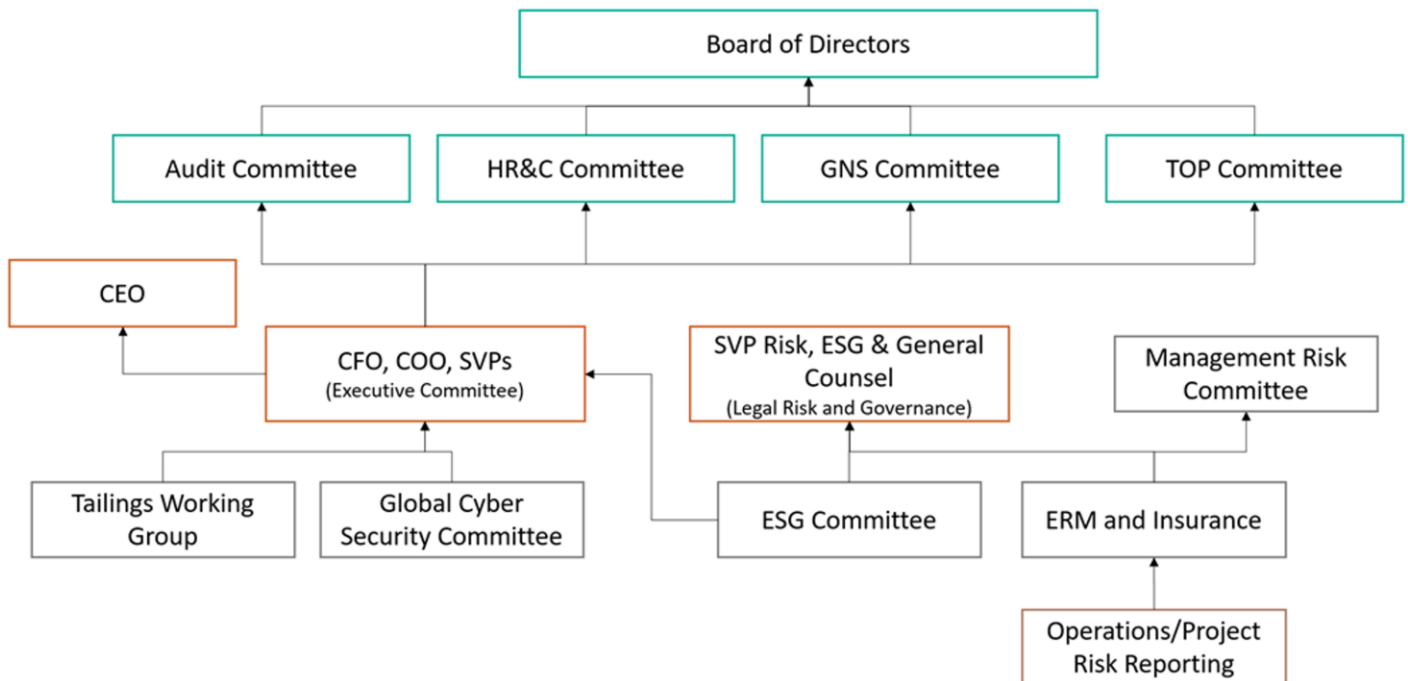

Risk champions are identified and trained at the operating sites and development projects; this coupled with on-going training and awareness programs for the Management teams, assists in embedding our ERM System and enhancing our risk awareness culture and risk-based decision making.

Capstone's ERM framework includes a cross functional management risk committee which meets to identify and discuss emerging and disruptive risks, and the interconnectivity between identified risks and mitigation strategies. Additionally, committees and working groups are established to manage key risks. The Tailings Working Group, ESG Committee, Global Cyber Security Committee and Global Pandemic Response Team report quarterly to the Board.

Tailings Working Group	<p>The Tailings Working Group is led by our Director, Tailings & Civil Infrastructure, a tailings management professional, and provides tailings management guidance and oversight to ensure tailings risks and mitigation efforts are adequately understood and communicated and responsible tailings management practices are applied across all operations and projects.</p>
ESG Committee	<p>The ESG Committee is led by our Senior Vice President, Risk, ESG & General Counsel and is tasked with assisting Management in leading the ESG strategy and initiatives across Capstone. The ESG Committee identifies, assesses, and determines ESG topics that are material for Capstone. It also plays a role in ensuring the risk management and internal control systems are in place for managing ESG risks.</p>
Global Cyber Security Committee	<p>The Global Cyber Security Committee led by our Director, Technology and Global Applications, manages information security risk through ongoing governance, policies, practices and cyber security training initiatives. Capstone continuously monitors the effectiveness of existing controls and the Cyber Incident Response Plan and utilizes third parties to assist with identifying and assessing new cyber threats and system vulnerabilities. Capstone highlights the importance of cyber and information security risk through direct oversight from the Board.</p>

Capstone's ERM System is regularly assessed against best practices and enhanced where appropriate. In addition to traditional measures of likelihood and impact, Capstone includes a third dimension of risk analysis, risk velocity. Velocity measures how fast the occurrence of a risk may affect the organization and can significantly influence the mitigation strategy. In addition to the quarterly reports to the Board, additional risk reports are provided to the Board and the appropriate committee of the Board following any special reviews or investigations completed internally or by consultants.

The following chart highlights the governance structure of Capstone's ERM framework:

COMPENSATION DISCUSSION AND ANALYSIS

An Introduction from Human Resources & Compensation Committee Chair

Dear Shareholders,

On behalf of the Board and the HR&C Committee, I am pleased to introduce the Compensation Discussion and Analysis (“CD&A”). The Board is keenly aware of our responsibility to ensure our approach to executive compensation supports our strategy, aligns with the interests of our shareholders and provides a competitive compensation program that motivates and retains talent for long-term sustainability and growth. We are also aware that our compensation decisions must be logical and understandable to our employees, shareholders and other stakeholders, and we are committed to providing clarity and transparency through a comprehensive CD&A.

Capstone’s 2023 Performance

Capstone’s 2023 key performance highlights are as follows. Refer to page 51 for a more detailed summary.

- Achieved consolidated copper production of 164,353 tonnes with a C1 cash cost of \$2.88/lb for the year ended December 31, 2023.
- At the MVDP, construction of all elements required to commence commissioning activities was completed by year end 2023.
- Announced that the Copper Mark had been awarded to our Mantoverde and Mantos Blancos operations in Chile.
- Expanded the Company’s Revolving Credit Facility to \$700 million and extended maturity.
- On March 20, 2023, Capstone Copper announced a new Sustainable Development Strategy and the adoption of greenhouse gases (“GHG”) emissions reduction targets to support the Company’s commitment to responsible copper production.
- On March 31, 2023, the Company and its largest shareholder, Orion completed a secondary bought offering of Common Shares whereby Orion sold an aggregate of 57,500,000 Common Shares at a price of C\$5.70 per share.
- Announced the results of a new Technical Report and life of mine plan for its Cozamin mine. The updated life of mine plan includes average annual copper production of 20 thousand tonnes of copper and 1.3 million ounces of silver over eight years at average C1 costs²⁹ of \$1.51 per payable pound of copper.
- At Pinto Valley, Capstone continued to advance our evaluation of expansion and district integration opportunities.
- Also at Pinto Valley, Capstone invested in infrastructure upgrades aimed at increasing water reclaim, tailings and environmental projects.

Key Compensation Activities in 2023

The HR&C Committee monitored emerging trends in executive compensation practices and reviewed the need for changes to align with the market. Our key activities for 2023 included:

- Reviewed executive and independent director pay levels based on updated compensation peer group;
- Enhanced share ownership requirement levels for our CEO;
- Reviewed executive compensation risk;
- Continued our shareholder engagement on executive compensation design; and
- Reviewed CEO and executive team succession plans.

2023 CEO Pay

The CEO’s actual total direct compensation (“TDC”) for 2023 was \$4.06 million, which included a short-term incentive award of \$874,874 and mid- and long-term equity incentives awards totaling \$2.28 million at grant. The CEO’s short-term incentive award was based on Capstone’s overall performance relative to safety, environmental, ESG, operational, financial and strategic objectives established by the Board at the start of the year (scoring 78%), as well as individual objectives (scoring 125%). The mid- and long-term equity incentives were in the form of Performance Share Units (50%), Restricted Share Units (25%) and stock options (25%) to align with long-term shareholder interests. The Performance Share Units are completely at-risk and vest based on total shareholder return (“TSR”) performance relative to other copper producers against which we compete for investor capital.

We believe the compensation awarded to our CEO in 2023, which was informed by market data from our compensation peer group, appropriately reflects Capstone’s operating performance as well as Mr. MacKenzie’s delivery on key strategic objectives that contribute to long-term shareholder value.

²⁹ These are alternative performance measures. Refer to the news release titled “Capstone Copper Reports First Quarter 2023 Results”, dated May 3, 2023.

ESG

Capstone's vision is to create a positive impact in the lives of our people and local communities while delivering compelling returns to investors by sustainably producing copper to meet the world's growing needs. Our goal is to be a responsible, industry-leading source of copper. To support our commitment, Capstone has ESG specific objectives on our Corporate Scorecard, that are directly linked to executive short-term incentives. Our ESG objectives (which include our focus on safety and the environment) have a very meaningful weighting of 30% in the Corporate Scorecard.

Conclusion

In summary, the Board, the HR&C Committee and Management are committed to creating long-term value for our shareholders and believe in aligning our executive compensation program with this purpose in mind. Our compensation philosophy and principles drive our compensation program. We believe the design of our current program provides the ability to motivate, reward and retain high performing executives to create and deliver value as well as providing the flexibility required to support Capstone's long-term success in a cyclical and volatile industry.

Yours sincerely,

"Peter Meredith"

Lead Director & Chair of HR&C Committee

Compensation Risk Management

The Board has overall responsibility for the oversight of our risk management policies, plans and practices. The HR&C Committee is responsible for overseeing our compensation policies and practices to ensure they do not encourage management to take risks that are outside of our risk tolerance and would be reasonably likely to have a material adverse effect on Capstone. Management reports annually to the HR&C Committee on the steps taken to identify, monitor and control compensation risk exposures. Biennially, a third-party consultant reviews the following:

- the appropriateness of the compensation peer group;
- target compensation levels by role to ensure that levels are consistent with compensation philosophy and peer group practices;
- pay mix to ensure that there is an appropriate mix of fixed and variable (at-risk) compensation; and
- the degree of alignment between executive pay and shareholder returns and other performance metrics.

In addition, our Anti-Hedging Policy and Clawback Policy have been designed to complement our risk management approach.

Anti-Hedging Policy

Capstone prohibits directors and management from directly or indirectly hedging against future declines in the market value of any securities of Capstone through the purchase of financial instruments designed to offset such risk. Prohibited transactions include the purchase by a director or management of financial instruments, including, without limitation, prepaid variable forward contracts, equity swaps, collars, puts, calls or other derivative securities that are designed to hedge or offset a decrease in market value of equity securities of Capstone.

Hedging or monetizing transactions to fix the value of equity holdings in Capstone could potentially break the alignment between the holder’s interests and those of other Capstone shareholders, thus defeating the purpose of LTI compensation.

Clawback Policy

Our Clawback Policy allows Capstone to recover performance-based compensation from the CEO, CFO, COO, Senior Vice Presidents and Vice Presidents if there is a restatement of Capstone’s previous financial results (other than a restatement caused by a change in applicable accounting rules or interpretations), the result of which is that any performance-based compensation paid would have been a lower amount had it been calculated based on the restated results.

Performance-based compensation means all bonuses and other incentive and equity compensation awarded based on achievement of financial results.

Share Ownership Guidelines

The Board believes that certain executive and directors should own and hold Common Shares to further align their interests and actions with the interests of shareholders. Capstone’s Share Ownership Guidelines apply to the independent directors and officers of Capstone and its subsidiaries (includes independent directors, CEO, CFO, COO, Senior Vice Presidents, Vice Presidents and Mine General Managers).

The following shares (collectively, the “Qualifying Shares”) qualify under the guidelines:

- shares owned outright;
- share units granted through Capstone’s Share Unit Plans (RSU’s, PSU’s, TRSU’s, TPSU’s and DSU’s);
- shares owned through Capstone’s Employee Share Purchase Plan; and
- shares held by immediate family members; or held in trust; or family holding companies.

Stock options granted through the Incentive Stock Option & Bonus Share Plan are excluded from the definition of share ownership. The Committee continues to review the inclusion of unvested share units, including PSUs, in the definition of share ownership, against market best practices and policy guidance from external constituents.

The below table summarizes share ownership requirements for the independent directors, CEO and all other executives (including the NEOs).

Level	Requirement
Independent Directors	4x Annual Retainer
CEO	4x Base Salary
Other Executives (CFO, COO, Senior Vice Presidents, Vice Presidents and Mine General Managers)	2x Base Salary

As of July 2023, the Share Ownership Guidelines were amended to increase the requirement for the CEO from 3 to 4 times Base Salary.

Participants are required to achieve ownership of a number of Qualifying Shares meeting the required market value by the later of five years after adoption of the Share Ownership Guidelines or five years after first being designated as a participant. After a change in base salary or annual retainer fee or, if appropriate, a change in title, participants are required to meet the additional incremental value requirement within three (3) years.

EXECUTIVE COMPENSATION PRACTICES

Executive Compensation Objectives

Our executive compensation program is designed to provide an attractive, market-based total rewards program tied to performance and aligned with the interests of our shareholders. Our objective is to attract and retain the caliber of executive officers necessary to deliver sustained high performance and growth. On a regular basis, we benchmark our programs against the best practices of our compensation peer group to remain competitive. The goals of our program are to:

- **attract and retain top-caliber executives:** executive officers have base salaries and employee benefits that are market competitive and allow us flexibility to hire and retain high-caliber individuals at all levels;
- **pay for performance:** a significant portion of executive compensation is at risk based on Company and individual performance;
- **reward long-term growth and profitability:** a significant portion of executive compensation is in long-term equity-based programs that reward achievement of long-term results, aligned with Capstone's goals and the interests of our shareholders;
- **align compensation with shareholder interests:** the interests of our executive officers are linked with those of our shareholders through the risks and rewards of ownership of our securities and units; and
- **reinforce succession planning:** the overall compensation program for our executive officers reinforces our robust succession planning process and the expected leadership behaviours.

Compensation Philosophy

Capstone's compensation philosophy is to target TDC within a competitive range of the market median, with the ability to earn compensation above median for very strong performance.

Total direct compensation includes base salary, short-term incentive and long-term incentives.

Peer Benchmarking

The HR&C Committee engages Meridian Compensation Partners ("**Meridian**") as its independent advisor. Meridian generally benchmarks executive and independent director pay levels and practices every two years.

To identify appropriate peer companies, Meridian used the following criteria:

- publicly-traded North American companies in the Copper, Gold, Silver and Diversified Metals and Mining sectors;
- a target size scope of 1/3 to 3 times Capstone's total assets, with revenue and market capitalization used as secondary lenses;

- corporations with a similar mining operations profile to Capstone's.

These criteria were validated by Capstone's HR&C Committee and management. The HR&C Committee may expand these criteria as necessary to maintain an appropriately sized peer group.

2023 CORPORATE PERFORMANCE

Capstone bases short-term variable compensation on predetermined objectives that are recommended annually by Management, reviewed by the HR&C Committee and approved by the Board. These objectives are documented on the annual Corporate Scorecard, with a significant proportion based on the performance of Capstone's operating mines. Scorecards help to align Management efforts with shareholder interests, to communicate priorities, to measure and to reward performance. The objectives are based on what Management can control. Targets are set for safety, environmental, ESG, operational and financial performance, with specific strategic growth and execution initiatives set at each of our assets. Executives' short-term variable compensation is determined based on a combination of performance against the Corporate Scorecard and individual performance commitments which are also set early in the year and tracked.

Summary of Corporate Scorecard Results

Capstone Copper made solid progress in many important areas during 2023. Our Corporate Scorecard targets and performance results for 2023 are summarized as follows. Scorecard weightings (out of 100%) are shown in brackets behind each category. Performance for the Corporate Scorecard can range from 0-200%.

- **Safety (15%):** Performance targets are set both for leading indicators, such as compliance with site safety management plans and for lagging indicators, such as injury statistics. Capstone did not achieve target performance in 2023 as a result of a higher lost time injury frequency rate over the prior year.
- **Sustainability (15%):** The Sustainability category captures reportable and non-reportable environmental incidents as well as performance on various goals, which in 2023 included the completion of a climate risk assessment and the establishment of working groups for Capstone's ESG priority areas. Notably, Capstone's Chilean Operations were awarded the Copper Mark during 2023, and we achieved an above target score in the ESG category.
- **Operational Performance (40%):** Operational performance is measured against consolidated production targets (20%) and operating costs (20%). Capstone did not achieve its initial public guidance for production or costs in 2023, resulting in a below target score for the year.
- **Strategic (30%):** The Strategic section of the Corporate Scorecard encompasses company-wide and site-specific targets covering financial deliverables, growth, execution, and risk management. In 2023, progress at our MVDP had an outsized weighting. Other targets in the Strategic section included progress with the adoption of a new mining method at Cozamin, the evaluation of district consolidation opportunities, and various engineering studies. We achieved an above target score in the Strategic section for 2023.

Overall, the Board approved a score of 78% on the Corporate Scorecard for 2023.

Summary of Market Performance

The macro environment in 2023 made it a challenging period for copper miners with the industry impacted by inflationary pressures, significant copper price volatility, supply chain disruptions, and a broader concern regarding global economic uncertainty. Over the course of the year, Capstone's share price closely tracked the volatility in the copper price, and our share price finished the year up 31%, compared with the copper price, which was up 1% over the same time period. Copper prices have increased slightly since the last quarter of 2023, largely driven by supply side constraints including production cuts at several large copper mines. This has been partially offset by concerns regarding near-term copper demand, with weak economic indicators out of China and the potential for higher interest rates for longer. However, tight inventories, extremely low spot treatment and refining charges for copper concentrate, and copper's critical role in supporting decarbonization and electrification efforts globally support copper fundamentals and a positive market backdrop.

The following graph compares the cumulative TSR on \$100 invested in Common Shares from January 1, 2019, through December 31, 2023 with the cumulative TSR for the same period of the Standard & Poor’s 500 Index (“S&P”)/TSX Composite Index and S&P/TSX Equal Weight Global Base Metals Index.

For the five-year period ended December 31, 2023, Capstone Copper’s share price increased by 957.4%, outperforming the S&P/TSX Equal Weight Global Base Metals Index, which was up 61.1% over the same period.

Over the same timeframe:

- **Short-Term Incentive:** Results on the Corporate Scorecard (which drive the majority of short-term incentive payouts) have directionally aligned with share price performance.
- **PSUs:** Our PSUs, which are 100% linked to total shareholder return relative to a group of companies with similar production and commodity price exposure, have paid out in relation to our share price performance over the five-year timeframe (200% of target for 2019-2021, 200% of target for 2020-2022, and 200% of target for 2021-2023). PSUs also precisely track the underlying value of Capstone’s share price, so there is 100% alignment with share price performance over the 5-year period.
- **RSUs:** RSUs precisely track the underlying value of Capstone’s share price, so there is 100% alignment with share price performance over the 5-year period.
- **Stock Options:** Stock options are only valuable to recipients to the extent that share price appreciates. Given the strong share price appreciation in Capstone’s stock over the last 5 years, most of our stock option grants over the last 5 years are in-the-money and align executive rewards with company performance.

EXECUTIVE COMPENSATION COMPONENTS

Compensation Mix

The following charts demonstrate the target pay mix for Capstone's NEOs. A large portion of NEO pay is performance-based in the form of short-term annual incentive bonuses and long-term incentives.

The following charts show the target CEO and average NEO compensation mix for 2023.

Base Salary

Capstone's approach is to pay its executives a base salary that is competitive with those of other executive officers in similar companies. We believe that a competitive base salary, targeting the median of the peer group, is a necessary and balanced element to attract and retain talented and experienced executives. The base salary of each executive is reviewed annually and may be adjusted to reflect experience in the role, scope of the role, change in responsibility, performance, internal equity, retention risk and market competitive salary levels.

Capstone entered into employment agreements with its NEOs at the time of their appointment that set base salaries at an initial negotiated level considering the following factors:

- base salaries for comparable positions at similar companies;
- individual experience and skills of, and expected contribution from, each executive;
- roles and responsibilities of the executive; and
- base salaries of Capstone's other executives and other factors.

The following table outlines the annual base salaries for the CEO and other NEOs.

Executive	2023 Annual Base Salary
John MacKenzie CEO and Director	\$910,000
Cashel Meagher President & COO	\$650,000
Raman Randhawa Senior Vice President & CFO	\$510,000
Wendy King Senior Vice President, Risk, ESG, General Counsel & Corporate Secretary	\$434,200
Jerrold Annett Senior Vice President, Strategy & Capital Markets	\$404,250

Annual Short-Term Incentive Bonus

The executive officers of Capstone have an opportunity to earn an annual STI bonus based on corporate and individual performance. Each year, the HR&C Committee recommends Capstone's Corporate Scorecard to the Board for their approval.

EXECUTIVE COMPENSATION COMPONENTS

The annual STI bonuses are based on a balanced mix of performance measures, which include:

1. **Corporate Scorecard Objectives**, which outline Capstone's annual objectives, including specific weightings, targets and criteria for measurement.
2. **Individual Objectives**, which vary for each NEO and consist of key initiatives and projects aligned with their role, their leadership and personal development and the overall strategic plans of Capstone.

Short-Term Incentive Weightings

The following table outlines the performance measure weightings for the CEO and other NEOs.

Executive	Corporate Scorecard Objectives	Individual Objectives
John MacKenzie CEO and Director	80%	20%
Cashel Meagher President & COO	70%	30%
Raman Randhawa Senior Vice President & CFO	70%	30%
Wendy King Senior Vice President, Risk, ESG, General Counsel & Corporate Secretary	70%	30%
Jerrold Annett Senior Vice President, Strategy & Capital Markets	70%	30%

STI awards are calculated based on actual performance results, which are subject to the performance multiplier ranges described below.

Short-Term Incentive Targets

Capstone's target STI awards are positioned to align total cash compensation within a competitive range of the market median, with the ability to earn compensation above median for very strong performance. The table below summarizes the STI targets for the CEO and other NEOs.

Executive	STI Target (% of Base Salary)
John MacKenzie CEO and Director	110% ⁴²
Cashel Meagher President & COO	90%
Raman Randhawa Senior Vice President & CFO	75%
Wendy King Senior Vice President, Risk, ESG, General Counsel & Corporate Secretary	75%
Jerrold Annett Senior Vice President, Strategy & Capital Markets	75%

⁴² Effective January 1, 2023, Mr. MacKenzie's STI target was increased from 100% to 110% of base salary.

EXECUTIVE COMPENSATION COMPONENTS

Project Milestone Bonus

Through his previous employment relationship with Mantos Copper, Mr. MacKenzie is entitled to receive a project milestone bonus for the MVDP. Project milestone bonuses are established to incentivize and motivate certain key management employees' performance. The project milestone bonus is tied to retention, project cost and project schedule. Mr. MacKenzie is eligible for a project milestone bonus based on the following components: 1.125x annual base salary for retention bonus, 0-0.75x annual base salary for project cost bonus and 0-0.75x annual base salary for project schedule bonus.

Long-Term Incentive Plans

Capstone's long-term incentive plans are designed to align management's interests with those of shareholders through grants of PSUs, RSUs (collectively, "Share Units") and stock options. The value of earned Share Units, as well as vested stock options, fluctuate with the value of Capstone's shares. PSUs vest only when performance-based criteria are achieved over a three-year period, while RSUs vest $\frac{1}{3}$ after one year, $\frac{1}{3}$ after two years and $\frac{1}{3}$ after three years.

Our long-term incentive equity vehicles support Capstone's strategic business objectives in relation to performance, retention of critical talent, ability to manage costs as well as our ability to minimize the dilutive impact of stock options while remaining competitive within the industry.

Long-Term Incentive Mix

Senior executives receive a combination of PSUs, RSUs and stock options. The chart shows the senior executives' LTI mix and the substantial weighting on PSUs (50% of the overall mix), which are directly linked to Capstone's share price performance and the share price performance of a pre-determined group of base metals peers.

The LTI mix is reviewed on an annual basis to ensure it aligns with trends in compensation best practices, shareholder interests, and peer benchmarking while supporting attraction and retention objectives. The combination of measuring relative TSR in the PSUs, which are denominated in shares and reflect absolute and relative performance, and stock options, which only payout to the extent share price increases, allows us to reward industry and commodity price out performance, in a shareholder aligned way.

Executive LTI Mix

■ PSUs ■ Stock Options ■ RSUs

Long-Term Incentive Targets

Capstone's target LTI awards are positioned to align TDC within a competitive range of the market median with the ability to earn compensation above median for very strong performance. The table below summarizes the LTI targets for the CEO and other NEOs.

Executive	LTI Target (% of Base Salary)
John MacKenzie CEO and Director	250%
Cashel Meagher President & COO	170%
Raman Randhawa Senior Vice President & CFO	170% ⁴³
Wendy King Senior Vice President, Risk, ESG, General Counsel & Corporate Secretary	150%
Jerrold Annett Senior Vice President, Strategy & Capital Markets	150%

Capstone generally expects future LTI awards to be based on executive responsibilities, executive's past performance and anticipated future contribution, competitive market practices and terms and conditions of the employment agreements.

⁴³ Effective January 1, 2023, Mr. Randhawa's LTI target was increased from 150% to 170% of base salary.

Security Based Compensation Plans

Capstone's Incentive Share Option and Bonus Share Plan (the "**Option Plan**") and Capstone's Treasury Share Unit Plan (the "**Treasury Share Unit Plan**") (collectively the "**Security Based Compensation Plans**") provide for the issuance of options or share units to a maximum of 10% of Capstone's issued and outstanding Common Shares (subject to standard anti-dilution adjustments). The **Option Plan** allows for the issuance of up to 500,000 Bonus Shares in any one calendar year to employees or non-employee directors of Capstone or any of its subsidiaries.

The **Security Based Compensation Plans** are considered "rolling" plans as the number of shares available for issuance under the **Security Based Compensation Plans** increases with the number of our issued and outstanding shares. The **Security Based Compensation Plans** are also considered "evergreen" plans because when: (a) an option or share unit is exercised or redeemed, additional shares become available for subsequent grants under the **Security Based Compensation Plans** because each exercise or redemption reduces the number of shares that are currently covered by options or share units and increases the outstanding share capital of Capstone; and (b) an option or share unit expires or otherwise terminates for any reason without having been exercised or redeemed in full, the number of Common Shares reserved for issuance under that expired or terminated option or share unit again becomes available for the purpose of the **Security Based Compensation Plans**. Any option or share unit outstanding when the **Security Based Compensation Plans** are terminated will remain in effect until they are exercised, expired, or redeemed.

Incentive Stock Options & Bonus Shares

Stock option grants and bonus shares under the **Option Plan** are used to attract and retain executives and to give them an incentive to participate in the long-term development of Capstone and increase shareholder value.

Capstone's **Option Plan** includes the following key features and practices:

- A double-trigger Change of Control provision;
- No financial assistance is provided to participants for the purpose of exercising or settling equity awards;
- For the past 3 years, our CEO's stock options have had a vesting schedule of 1/3 on the first anniversary, 1/3 on the second anniversary and 1/3 on the third anniversary of the grant date;
- For the past 3 years, our CEO has received an annual grant comprised of 50% PSUs, 25% RSUs and 25% stock options;
- Our Clawback Policy applies to equity awards;
- Capstone has not re-priced stock options in the past 3 years;
- A Non-Employee Director Participation limit, which includes bonus shares, with an annual maximum of \$150,000 in grant value per director, provided that the total value of stock options issuable to any one non-employee director in any one year period shall not exceed \$100,000; and
- The full Option Plan can be found on under the Company's profile on SEDAR+ at www.sedarplus.ca.

Under our **Option Plan**, (a) stock options in favor of any one individual may not exceed 5% of the issued and outstanding Common Shares in any one year period, (b) the maximum number of stock options that any employee or non-employee director of the Company or its subsidiaries may hold is stock options to acquire up to 5% of the outstanding number of issued shares of the Company at the time of granting, (c) the maximum number of Common Shares issuable to Insiders pursuant to the Option Plan, together with the maximum number of Common Shares issuable to Insiders pursuant to all other Security Based Compensation Plans, at any time may not exceed 10% of issued and outstanding Common Shares, (d) the maximum number of Common Shares issued to Insiders pursuant to the Option Plan, together with the maximum number of Common Shares issued to Insiders pursuant to all other Security Based Compensation Plans, within a one year period, may not exceed 10% of the issued and outstanding Common Shares, (e) no stock option is transferable by the optionee other than by will or the laws of descent and distribution, (f) a stock option is exercisable during the lifetime of the optionee only by such optionee, (g) the maximum term of each stock option is ten years, with the vesting period determined at the discretion of the Board, (h) the minimum exercise price for a stock option is the volume weighted average trading price of the Common Shares on the TSX calculated by dividing the total value by the total volume of Common Shares traded, for the 5 trading days immediately preceding the granting of the option, (i) subject to the terms of an option holder's written employment agreement, in the event an option holder's employment is terminated for cause or from an order made by a regulatory authority, stock options that have not vested shall be forfeited immediately, otherwise, after 30 days from the date the termination notice is delivered and (j) subject to the terms of a participant's written employment agreement, in the event an option holder's employment is terminated due to death, stock options that have not vested shall be forfeited on the one year anniversary of the option holder's death. As at December 31, 2023, there were a total of 11,563,349 Common Shares reserved for issuance under the Option Plan, with 3,542,343 stock options issued and outstanding (with the underlying Common Shares representing approximately 0.5% of Common Shares),

EXECUTIVE COMPENSATION COMPONENTS

leaving an additional 8,021,006 stock options available for grant (with the underlying Common Shares representing approximately 1.2% of Common Shares).

The Option Plan may be amended, modified or terminated by the Board without approval of shareholders of Capstone, including, without limiting the generality of the foregoing: (i) amendments of a “housekeeping” nature, (ii) amendments necessary to comply with the provisions of applicable law, (iii) amendments which increase the exercise price of an option, (iv) expansion of the scope of persons eligible to participate, (v) amendments respecting administration of the Option Plan, (vi) amendments to the vesting provisions of the Option Plan or any options, (vii) amendments to the early termination provisions, provided such amendment does not entail an extension beyond the original expiry date of such option, (viii) to add or change provisions relating to any form of financial assistance provided by Capstone, and (ix) to add a cashless exercise feature to any option. Provided however that such amendment, suspension or termination must be in accordance with applicable laws and the rules of any securities exchange on which Capstone has listed or posted its securities for trading, and, the following amendments require shareholder approval: (i) increase in the maximum number of Common Shares issuable under the Option Plan, (ii) amendments which reduce the exercise price of an option (except pursuant to customary permitted adjustments), (iii) amendments to the assignment or transferability provisions, (iv) amendments extending the term of an option beyond its original expiry date, except in case of an extension due to a black-out period, (v) amendments to the amendment provisions, (vi) any amendment to the number of Equity Awards (as defined in the Option Plan) which may be granted to non-employee directors and (vii) amendments required to be approved by shareholders under applicable law. Where shareholder approval is sought for amendments under clauses (ii) and (iv) above, the votes attached to Common Shares held directly or indirectly by insiders who would benefit from the amendment will be excluded.

In no case will an Option be exercisable later than the Expiry Date (as defined in the Option Plan) of such Option fixed by the Board at the time the stock option is awarded to the Option Holder (as defined in the Option Plan); provided, however, that it would not result in the imposition of an additional tax under section 409A of the United States of America Internal Revenue Code of 1986, as amended, if the term of an Option expires during a Blackout Period (as defined in the Option Plan) or within 10 business days after the date on which the Blackout Period ends, then the term of such stock option shall be extended to the date which is 10 business days after such date on which the Blackout Period ends.

- promote further alignment of interests between executives and shareholders of Capstone;
- associate a portion of executives' compensation with the returns achieved by shareholders of Capstone; and
- attract and retain executives with the knowledge, experience and expertise required by Capstone.

An RSU is a right to receive the value of a Common Share that vests $\frac{1}{3}$ after one year, $\frac{1}{3}$ after two years and $\frac{1}{3}$ after three years.

The **Treasury Share Unit Plan** provides for the grant of Treasury Share Units (as defined below), together with all other Security Based Compensation Plans of the Company may not exceed 10% of the issued and outstanding Common Shares from time to time, provided that, the maximum number of Common Shares that may be issued pursuant to Treasury Share Units made under the Treasury Share Unit Plan may not exceed 3.5% of the issued and outstanding Common Shares from time to time (subject to standard anti-dilution adjustments) to Eligible Persons.

Subject to the terms of a participant's written employment agreement, in the event a participant's employment is terminated with cause, PSUs or RSUs that have not vested shall be forfeited immediately. In the event employment is terminated without cause of death or disability, PSUs that have not vested shall vest in accordance with the grant agreement governing the PSU, and RSUs that have not vested shall vest in accordance with the formula described in the Treasury Share Unit Plan, PSUs or RSUs that have not vested shall be forfeited immediately.

In the event of a Change of Control (as defined in the Treasury Share Unit Plan) prior to the end of the vesting period, the HR&C Committee may determine, in its sole discretion:

- (a) that for any Treasury Share Unit, there shall be substituted an entitlement (in the form of notional units or other contingent rights) to receive cash or such securities into which Common Shares are changed, or are convertible or exchangeable, on a basis proportionate to the number of Common Shares to which the participant would be entitled if the Treasury Share Units immediately prior to the effective time of the Change of Control were Common Shares, or some other appropriate basis; or
- (b) that all Treasury Share Units that have not previously vested shall vest on the effective date of the Change of Control, provided that, in the case of PSUs, the total number of Treasury Share Units shall be the greater of: (i) the number of PSUs

specified in the grant agreement without giving effect to any potential increase or decrease in such number as a result of graduated performance conditions permitting vesting of more or less than 100% of the PSUs or (ii) the number of PSUs specified in the grant agreement giving effect to any increase or decrease in such number as a result of graduated performance conditions of the PSUs that have been met. Treasury Share Units that vest in accordance with Section 5.2 of the Treasury Share Unit Plan shall be settled in the same manner as paragraph (a) above.

Except upon the death of a Participant, PSUs and RSUs (together, “**Treasury Share Units**”) may not be transferred or assigned.

The Treasury Share Unit Plan may be amended, modified or terminated by the Board without approval of shareholders of Capstone, provided that no amendment to the Treasury Share Unit Plan (or grants thereunder) may be made without the consent of a participant if it adversely alters or impairs the rights of the participant in respect of any grant previously granted, except for purposes of compliance with applicable law. For greater certainty, the following amendments require shareholder approval: (i) increase in the maximum number of Common Shares issuable, (ii) increase or remove the Insider participation limits, (iii) extend the maximum term of grant, except in case of an extension due to a black-out period, (iv) amend the assignment provisions, (v) include other types of equity compensation involving the issuance of Common Shares and (vi) amendments to the amendment provisions to grant additional powers to the Board to amend the Treasury Share Unit Plan without shareholder approval. For greater certainty and without limiting the foregoing, shareholder approval shall not be required for the following amendments and the Board may make such changes without shareholder approval, subject to TSX approval: (i) amendments of a “housekeeping” nature, (ii) a change to the vesting provisions of any grants, (iii) a change to the termination provisions of any grant that does not entail an extension beyond the original term of the grant or (iv) amendments to the provisions relating to a Change of Control (as defined in the Treasury Share Unit Plan).

If Treasury Share Units are to be settled within a Blackout Period (as defined in the Treasury Share Unit Plan), such settlement shall be postponed until the earlier of the 6th Trading Day following the end of such Blackout Period and the latest date for settlement of the Participant’s Share Units as determined in accordance with Section 6.1, and the Market Value of any RSUs or PSUs being settled at the Participant’s option in cash will be determined as of the earlier of the date five Trading Days following the end of such Black-out Period and the day prior to the settlement date.

Under the Treasury Share Unit Plan, Market Value with respect to any particular date is calculated as the volume weighted average trading price per Common Share on the TSX during the immediately preceding five days on which the shares were actually traded, or the value established by the HR&C Committee of the Board acting in good faith.

The maximum expiry date of a Treasury Share Unit is the earlier of the date which is the tenth anniversary of the date on which such Treasury Share Unit is granted, or the latest date permitted under the applicable rules and regulations of all regulatory authorities to which Capstone is subject, including the TSX.

Subject to certain exceptions, if and when cash dividends (other than extraordinary or special dividends) are paid with respect to Common Shares to shareholders of record as of a record date occurring during the period from the grant date to the date of settlement of the RSUs or PSUs granted, a number of dividend equivalent RSUs or PSUs, as the case may be, shall be equal to the number of whole Treasury Share Units (rounding down) with a Market Value, as of the payment date for such dividend, equal to the product of (i) the cash dividend paid with respect to a Common Share multiplied by (ii) the number of RSUs or PSUs subject to the grant (including dividend equivalent RSUs or PSUs previously granted in connection with such RSUs or PSUs) as of the record date for the dividend. The additional RSUs or PSUs shall be subject to the same terms and conditions, including vesting and settlement terms, as the corresponding RSUs or PSUs.

The full Treasury Share Unit Plan can be found on under the Company’s profile on SEDAR+ at www.sedarplus.ca.

PSU Performance

PSU award levels are determined by TSR, which is the return on investment including share price return and dividends relative to the TSR of other companies in the PSU comparator group. Capstone’s performance is measured on a 3-year rolling basis against the predetermined base metals peer group and PSU award levels are based on this same 3-year period.

For the 3-years ending December 31, 2023, Capstone’s TSR was 171.0% compared to the average total return of the peer group of 41.2%, which was at the 100th percentile in the peer group and resulted in a payout factor of 200% of target for the 2021 PSUs. The 2021 peer group comprised the following companies⁴⁴:

⁴⁴ Turquoise Hill Resources, OZ Minerals Ltd. and Copper Mountain Mining Corp. were removed due to takeover bids and/or acquisitions.

Termination and Change of Control Benefits

We have entered into employment agreements with each of our NEOs which were negotiated at the time of appointment to align with market. Under the terms of the employment agreements, our NEOs are entitled to compensation, based on their remuneration at the time, in the event of:

- termination without cause; or
- a change of control, if the NEO is terminated without cause or resigns their employment for Good Reason (as defined below) within 12 months of the change of control.

A change of control, in general, occurs when a person or group of persons acting together through a transaction or series of transactions beneficially acquires or exercises control or direction over 50% or more of the Common Shares. The events selected for triggering payment in connection with termination without cause and on a change of control were determined by the HR&C Committee, with advice from independent consultants, based on industry standards at the time the agreements were entered into with each NEO.

“Good Reason”, in general, means the occurrence, within 12 months of a Change of Control, of any of (i) a meaningful or detrimental change in the employee’s position, duties or responsibilities; or (ii) a significant variance in the employee’s performance requirements or working conditions; or (iii) a reduction in the employee’s salary; or (iv) failure by the employer to increase the employee’s compensation in a consistent manner; or (v) a requirement that the employee relocates to a location greater than forty kilometers from the primary work location; or (vi) a significant or material reduction in the provision and value of the employee’s employment arrangements; or (vii) any action or event that would constitute constructive dismissal.

“Average Bonus Payment” means the amounts paid to the employee under the Annual Incentive Plan during the last three completed Bonus Years. However, if the employee has not been eligible to be paid under the Annual Incentive Plan for at least three Bonus Years, then the averages described above shall be calculated as (i) the average of the amounts paid to the employee under the Annual Incentive Plan during the last two completed Bonus Years, if the employee has been eligible to be paid under the Annual Incentive Plan for only the last two completed Bonus Years, or the last one completed Bonus Year, if the employee has been eligible to be paid under the Annual Incentive Plan for only the last one completed Bonus Year, as the case may be; or (ii) if, as of the last day of work, the employer has never paid an amount to the employee under the Annual Incentive Plan because the employee’s eligibility to be paid has been for less than one complete Bonus Year or because the employer has not yet made an award under the Annual Incentive Plan in respect of the employee’s one completed Bonus Year, then the average shall be calculated as 25% of the employee’s salary as of the last day of work (for the CEO, pro-rated for the portion of the Bonus Year that has passed to the date of the last day of work); and for clarity, if the employee was eligible to be paid an award under the Annual Incentive Plan during a Bonus Year but the employer did not make an award to the employee, the amount paid in respect of that Bonus Year (zero) shall be included for the purpose of determining the average.

DIRECTOR COMPENSATION

Director Compensation Objectives

The goals of the Board's compensation program are to:

- reflect the responsibility, commitment and risk accompanying Board membership and the performance of the duties required of the various committees of the Board;
- reflect director compensation consistent with companies in Capstone's compensation peer group; and
- align the interests of Capstone's directors with those of its shareholders.

Directors' compensation is reviewed in consultation with a third-party consulting firm and the same peer group is used as for the NEO and other senior executives' compensation review.

Director Compensation Components

Directors' compensation for service on the Board is composed of:

- a cash retainer; and
- an equity retainer.

Directors who are also employees of Capstone do not receive any compensation for their service as a director of Capstone.

The HR&C Committee reviews Board compensation on a regular basis and recommends revisions to the annual retainers paid to the Board when warranted. In addition, the Board may award special remuneration to any director undertaking any special services on Capstone's behalf other than services ordinarily required of a director.

Directors' Compensation – Cash Retainer

Directors receive an annual cash retainer and the Board Chair and Lead Director receive a higher amount for their increased responsibilities. Committee chairs receive an additional cash amount in addition to their annual cash retainer. The following table summarizes the 2023 annual cash retainers.

Level	2023 (\$)
Board Chair	125,000
Lead Director	85,000
Board Member	65,000

The following table summarizes the 2023 annual additional cash retainers for committee chairs.

Level	2023 (\$)
Audit Committee Chair	25,000
HR&C Committee Chair	20,000
GNS Committee Chair	15,000
TOP Committee Chair	15,000

Directors' Compensation – Equity Retainer

Directors' equity retainers are positioned to align total direct compensation within a competitive range of the market median. The below table summarizes the equity retainers for the Board Chair and Board Members.

Level	2023 (\$)
Board Chair	200,000
Lead Director	135,000
Board Member	135,000

Equity Retainer Mix

Capstone grants a combination of 75% Deferred Share Units (“DSUs”) and 25% stock options to align the interests of independent directors with those of shareholders. The equity mix is reviewed on an annual basis to ensure it aligns with market, shareholder interests and supports retention.

The LTI mix is reviewed on an annual basis to ensure it aligns with trends in compensation best practices, shareholder interests and peer benchmarking.

Director Equity Retainer Mix

Directors' Deferred Share Unit Plan

Capstone has a DSU Plan to align the interests of non-executive directors with those of Capstone's shareholders and to provide a compensation system for eligible directors that, together with the other director compensation mechanisms of Capstone, is reflective of the responsibility, commitment and risk accompanying Board membership and the performance of the duties required of the various committees of the Board.

Under the DSU Plan, independent directors may elect to receive up to 100% of their fees for serving as a director in the form of DSUs. Directors receiving DSUs will be credited with additional DSUs whenever cash dividends are paid on Common Shares. While DSUs received by directors vest immediately, directors will only be able to redeem their DSUs after they cease to be directors of Capstone.

The Board may amend the DSU Plan as it deems necessary or appropriate or terminate the DSU Plan at any time, but no such amendment or termination will, without the consent of the eligible director or unless required by law, adversely affect the rights of an eligible director with respect to any amount in respect of which an eligible director has then elected to receive DSUs or DSUs which the eligible director has been granted under the DSU Plan.

⁶¹ Mr. Brack resigned from the Board effective May 7, 2023.

⁶² Mr. Zollei resigned from the Board effective May 3, 2023.
